ESG strategy

Eurocommercial believes that building a sustainable and resilient business is the foundation for long-term success. Our ESG and business strategies are carefully aligned and each business decision is approached with a long-term view supported by detailed research in order to evaluate its environmental and socio-economic impact

Financial strategy

Eurocommercial's loan portfolio is primarily composed of mortgage loans secured against individual or groups of assets. These loans are mostly bilateral, allowing for a direct and long-term professional dialogue with the financing banks ensuring the necessary financing flexibility needed for a proactive management of the assets. The net loan to property value ratio and the incidence of fixed rate/hedged loans on the total borrowings are carefully managed to minimise the liquidity and the interest rate risks.
